ALBUKHARY INTERNATIONAL UNIVERSITY

Undergraduate Prospectus 2020/2021

"Albukhary International University is where Future Leaders are characterised by steadfastness, self-discipline, and conviction to serve the society"

Syed Mokhtar Albukhary, Founder

The establishment of AIU was founded on the twin philosophy of Faith in God and Compassion for Humankind. AIU aims to provide opportunity in tertiary education for students who are academically qualified but of underprivileged and disadvantaged backgrounds. Successful students will be fully sponsored by the Albukhary Foundation, and in return students are required to provide volunteering service in various welfare projects besides doing their best academically. In this way AIU hopes that its graduates will not only be successful professionals but will also be imbued with a passion to serve humanity.

The university was built and completed in 2010 by the Albukhary Foundation, a non-profit charitable organisation founded by Syed Mokhtar Albukhary, a Malaysian entrepreneur who has made charity a cornerstone of his business world. The university aims to achieve a final student population of about 3,000 students — of which about 70 to 80 percent are expected to be international students from all countries of the world and the balance shall be local Malaysian students comprising all the different races of the country.

Located in the small city of Alor Setar the capital of Kedah, a northern state in Malaysia, AIU is not an Islamic university, but an international university built on a 45-acre campus site based on Islamic principles of architecture and planning. The campus occupies a major part of the 75-acre Sharifah Rokiah Centre Of Excellence, a centre for education, public facilities for the local community and welfare facilities for the underprivileged. AIU is a non-profit private international university characterised by high-quality education and humanitarian values aimed at empowering underprivileged and disadvantaged students.

The campus is fully residential, while students who are eligible and applied for financial aid will be accorded the Albukhary Scholarship. These scholarships cover all tuition fees, on-campus hostel accommodation, meals, transport, books, uniforms, and other small cost of living allowances. All students will be required to do a certain amount of hours per week in social volunteer work at the various facilities for the local community and welfare facilities for the underprivileged within the Sharifah Rokiah Centre of Excellence under a programme of extracurricular. The university offers a one-year Foundation program leading to a number of 3-year undergraduate degree programmes in the School of Business Studies, School of Social Sciences and School of Information and Communications Technology and is scheduled to enrol its first students for the Foundation programme in January 2011.

Philosophy

AIU was founded with the intention of providing opportunity where the pursuit of knowledge can flourish together with exploration & stretching its boundary toward a new horizon for future need. At the heart of AIU lies its core values, Adab, Akhlak, Akidah, Amanah & Amalan. With this, AIU aspires to develop adaptable, balanced, well-rounded individuals who are willing and able to serve humanity, acting as change agents in their respective communities.

Vision

Innovating solutions that promote the convergence of ideas towards a sustainable world.

Mission

Provides opportunity to serve humanity through social business in a redesigned learning environment

Core Values

Adab - Refers to the nurturing of learning excellence and humility in upholding dignity and preserving humanity. This is derived from the word 'fa'dib' which means education. It is said that a person of high *Adab* is also a person of high education and knowledge. *Adab* embodies the attainment of the '*insan kamil*' or the perfect human beings. With *Adab*, the person must have achieved the other 4As below.

Akhlaq - The inculcation of moral virtues, internalisation of fine characters and being compassionate. A scholar's code of behaviour should resemble the high *Adab* that she/ he carries and the morals compass all actions.

Aqidah - The instillation of faith and spiritual-based life of excellence. A person with strong *Aqidah* is a well-disciplined person who understands her / his purpose in this life and hereafter.

Amanah - Always be truthful and honest, having integrity in all our actions and intentions. This is a key principle that governs every aspect of the University.

Amalan - The regeneration of tradition, and being innovative and focused to generate new generation. In every intention, there must be action (**إِنَّمَا الْأَعْمَالُ بِالنِّيَّاتِ**) - It is pointless for us to dream or wish to do something but no action is taken on those good intentions: alas, we will be in a state of atrophy where nothing is done. The aforementioned 5As core values are reinforced through activities which foster leadership, volunteerism, civic responsibility, mutual cooperation, respect of diversity and human rights. It will also nurture student's resourcefulness in promoting a life of dignity, well-being and success for individuals and societies living in peace and harmony in a sustainable, moral and ethical manner.

General Skills

The Albukhary Scholarship

In exploring the potentials of bright minds and innovative thinkers, we believe that deserving students should be given access to education. In AIU, only the best is provided for our Scholars, as it is the Founder's firm belief that no one should be exempted from receiving education.

Scholarship Criteria

The set of criteria explains the measure set by the university to identify candidates who lack access to education and are in need of AIU scholarship. Attached to the set are the guidelines followed by AIU to assess and evaluate the relative financial conditions of each candidate according to their countries

Socio-economic Background (40%)	Communication Skills (20%)	Personality (20%)	Attitude (20%)
<p>Underprivileged and targeted at B40 group (local student) and monthly family's income below USD 300 (international student).</p> <p>War-torn country, Muslim minority country, orphans.</p>	<p>Candidate ability to communicate will be evaluated. How well do candidate explain your answers? How articulate are candidate? Do candidate listen carefully to what the interviewers are saying, or do candidate interrupt and try to dominate the conversation? Do you look your interviewers in the eye when you speak to them? What does your body language say about you?</p>	<p>A personality is an evaluation through which the panel gets to know candidate personality. Interviewers may look for candidate with specific personality traits, such as being active in curriculum during high school, well organized, good in problem solving.</p>	<p>Candidate must want to learn, be receptive and participate in the learning process to ultimately experience satisfaction from learning.</p>
