

ASEAN-REPUBLIC OF KOREA DEVELOPMENT COOPERATION
PROGRAMME MANAGEMENT TEAM

8 February 2021

H.E. Kung Phoak
Deputy Secretary-General of ASEAN
For the ASEAN Socio-Cultural Community

Subject: Updates on the project titled "Higher Education for ASEAN Talents"

Dear Excellency,

Since 2020, the Republic of Korea has been contributing to the higher education of ASEAN Member States (AMS) through the project titled "Higher Education for ASEAN Talents."

In response to COVID-19, the Korea Council for University Education (KCUE), the project proponent, decided to add public health and medicine to the target sectors of its scholarship programme. Jeonbuk National University and Chung-Ang University will provide programmes on the above-mentioned sectors. The applicants for Fall Semester 2021 are allowed to study for the sectors.

In this regard, we would like to request your kind support to promote the new development in the scholarship programme to relevant stakeholders in AMS.

Thank you for your kind cooperation.

Yours Sincerely,
